

# BRIT School “Live Sessions”

The  
BRIT  
SCHOOL

For Performing Arts  
and Technology

The BRIT School “Live Sessions” are one to one sessions which work towards producing a bespoke music video of your performance which can be used on YouTube, for a showreel or audition practice or for your own enjoyment, experience and reflection. You will be working with Anton Browne, a music industry professional and vocal coach with many years experience.

Anton can also provide advice and vocal tuition if necessary to ensure the final performance is of the highest quality.

## SESSION 1 - 1 hour approx

Meet with Anton and discuss your song choices. There are no preset song lists, so you will have the freedom to work on the song of your choice.

Anton will produce the initial piano accompaniment, taking into account keys, tempo etc and you will then be given a copy of this backing track to rehearse at home.

## SESSION 2 - 1 hour approx

Production of the video. Anton can make any final adjustments to the backing track and you will then sing the final version which will be recorded and can then be downloaded. Recordings will take place in The BRIT School Recording Studio.
